**BODY**

pelleFirm<sup>®</sup>  
BODY TREATMENT

Do you  
**exercise**  
and **eat** well...

...but still struggle with  
certain cellulite-prone  
problem zones?

Address those areas  
**quickly** and **effectively**  
**without surgery, pain** or  
**downtime** - with the  
**PelleFirm® Body**  
**Treatment System.**

After just a few  
treatments you may  
start to **experience** a  
**temporary reduction** in  
the **appearance** of  
cellulite and an  
**overall smoothed**  
**body tone.**

#### WHAT IS PELLEFIRM?

PelleFirm is an FDA-cleared body treatment that revitalizes skin through a combination of deep tissue heating and mechanical massage to temporarily reduce the appearance of cellulite. PelleFirm treatments leave you with smoother skin and an overall healthier appearance from head to toe.

#### HOW DOES PELLEFIRM WORK?

PelleFirm delivers deep heating to the layers of the skin by applying consistent heat from a handpiece using advanced radiofrequency energy. The unique massaging head on the PelleFirm handpiece aids in natural fluid evacuation from the body in cellulite-prone areas.

#### HOW IS PELLEFIRM DIFFERENT THAN SIMILAR DEVICES AND TREATMENTS?

A PelleFirm treatment is comfortable and effective. It requires little to no before or after treatment care and can be done immediately before an important event or as a supporting treatment in your overall health regimen.

PelleFirm is a safe and effective solution for patients seeking non-surgical options to improve the appearance of their bodies.

#### WHAT SHOULD I EXPECT?

Patients describe the treatment as a deep heating sensation coupled with a focused massage. After treatment, most patients feel relaxed and ready to return to normal activity. There is no downtime associated with this procedure and it can be done anytime of the year and in patients with all skin colors.

After your initial treatment you may experience an immediate feeling of smoother skin in the treatment area. Treatments usually last up to an hour and you can return back to normal activity immediately after treatment. Four to six treatments are recommended to attain your optimal result - a healthier looking body.

Topical anesthetics and cooling devices are not needed and your practitioner will review any specific treatment protocols with you.
